BEAR CREEK FELTING

SHEPHERD INDUSTRIES LLC

hello!

I'M TERESA

I'm Teresa Perleberg, the founder of Bear Creek Felting, and I'm truly passionate about the art of needle felting.

What sets my kits apart is not only the quality of our wool that comes from my sheep I personally care for on our family farm in North Dakota, but also the detailed instructions that come with each one.

I've poured my heart into making my kits frustration-free, ensuring that crafters of all levels can enjoy a seamless felting experience

I'm honored to collaborate with you in bringing our premium products to your store, and I can't wait to see the joy they bring to your customers.

DAKOTA FIBER MILL

SHEPHERD INDUSTRIES LLC

hello!
I'M CHRIS

Hello, I'm Chris Armbrust, the founder of Dakota Fiber Mill.

For over a decade, I've meticulously processed the wool sourced from Teresa's sheep for her needle felting kits. In 2020, we established a partnership known as Shepherd Industries, pooling our expertise to create a rare and distinctive vertical wool company, offering full traceability from sheep to product. I'm dedicated to processing the wool for these kits using eco-friendly methods, guaranteeing you a fully sustainable project.

DISCOVER THE DIFFERENCE

At Bear Creek Felting, our commitment to quality extends from our farm to your fingertips. For over 15 years, we've dedicated ourselves to perfecting the felting qualities of our wool by meticulously crossbreeding different sheep breeds to create the ideal felting wool. Our sheep are raised with care on our farm in Fort Ransom, North Dakota, where we prioritize sustainable farming practices and the well-being of our animals.

We believe that the key to superior felting results lies in the quality of our wool. That's why we've worked tirelessly to improve the felting qualities of our wool through selective breeding and careful husbandry practices. By crossing different breeds, we've developed a wool that felts easily, holds its shape beautifully, and delivers professional-quality results with every project.

But our commitment to quality doesn't end with our wool. We also prioritize sustainability in our processing methods. Our wool is processed using eco-friendly products and methods, ensuring that our environmental footprint remains minimal. From washing and carding to dyeing and packaging, every step of our production process is conducted with the utmost care for the planet.

When you choose Bear Creek Felting, you're not just getting premium-quality wool – you're supporting sustainable farming practices, ethical animal husbandry, and eco-friendly production methods. Join us in our mission to craft responsibly and create beautiful, lasting works of art with Bear Creek Felting.

VERTICAL WOOL COMPANY

A Bear Creek Felting Kit is made fully within the state of North Dakota. This is actually quite a feat in today's textile environment, where few businesses take ownership from raw wool to retail.

Bear Creek's pipeline begins on the artist and kit designer's farm. The wool goes to be washed, carded and dyed 18 miles from the farm at our fiber mill in Nome.

The team at Shepherd Industries then assembles the kits and ships them directly from the mill in Nome.

Because of this, Bear Creek can offer an unsurpassable level of transparency: the wool can be tracked back to the sheep who grew it.

This traceability is incredibly important: most brands cannot offer this level of detail. But if you care about where your wool comes from, how it was processed and under what conditions, you'll want to choose to purchase from businesses that can offer traceability.

FROM OUR WHOLESALE CUSTOMERS

These are SO much fun!! I absolutely love having them in my store!!

- Kristie
There's No Place Like Home

Excellent products and customer service. You won't be disappointed!!!!

- Brenda Kaiser
The Copper Mug LLC

Very well put together!

- Camille Palmerl
Greycliff Wool Works

FROM OUR RETAIL CUSTOMERS

Hello, Teresa - My 3 granddaughters have immensely enjoyed learning to felt with your kits; they are stationed with the family in India and I'm sending more wool. In the past half year, they have become very adept and are even teaching other children. Thank you for quality wool and kits.

- P. W. McCloskey

The directions were very clear with color pictures. I was able to make 2 bears with all the supplies.

- Jeanie

A sweet baby dragon, and I learned how to do a few things I hadn't tried before. I thoroughly enjoyed working with this kit and the wool is beautiful, too. I improvised a little bee to be a buddy for the dragon. 😊🐝🌿❤️

- Cheryl
