

Rio de Janeiro, february 12, 2016

Dear Mrs. Maria Thereza,

Escola de Artes Visuais do Parque Lage (EAV) is pleased to invite you to take part in our new exhibition, **Depois do Futuro** [After the Future], to be held in the indoor and outdoor spaces of EAV from march 04, 2016, to May 01, 2016.

Curated by Daniela Labra, **Depois do Futuro** is the fourth exhibition in our Visiting Curator program. Since 2015, continuing in 2016, the exhibitions at Parque Lage have been organized by young curators invited to investigate topics of relevance to their research in formats conceived specially for the EAV setting. The first three visiting curators were Bernardo Mosqueira, Bernardo José de Souza, and Luisa Duarte, and the next will be Marta Mestre.

Each exhibition combines the work of artists with an established international name with that of at least five students from EAV Parque Lage, who devise projects in line with the proposed curatorial approach.

More than a series of exhibitions, our Visiting Curator program is a platform for reflections through experimentation in curatorship with the aim of fostering exchange between students, artists, and critics.

Attached to this letter is a summary of Daniela Labra's proposal for the upcoming exhibition. We thank you for taking part in this important exhibition of Escola de Artes Visuais do Parque Lage, and place ourselves at your disposal should you have any queries.

Best regards,

Lisette Lagnado - Diretora

Marcio Botner – Presidente OS Oca Lage
