A MESSAGE FROM ANNA

Hello, and welcome to GBAG!

GBAG is a premier supplier of custom, eco-friendly promotional bags designed to be sustainable, fashionable, recyclable, and reusable. We offer a wide range of styles, sizes, materials, and decoration options to meet your unique branding needs. What sets us apart from large, multi-level suppliers is our direct, experienced support—providing clear answers, practical recommendations, competitive pricing, artwork reviews, and dependable delivery timelines.

I personally stand behind our unbeatable 6-in-1 combination:

- Fast turnaround
- Exceptional quality
- Competitive pricing
- Onsite factory quality control
- A+ customer service
- Our innovative all-in-one Custom Order Station

For overseas projects, GBAG makes the process easier through our one-of-a-kind Custom Order Station. This all-in-one platform allows you to submit POs and artwork, approve printing layouts, review order details, view production photos in real time, access previous orders for faster reordering, track shipments, and make payments—all in one convenient place. Available 24/7 from anywhere in the world, it brings transparency, efficiency, and confidence to every project.

You imagine it. We make it.
You need it. We deliver it—on time, every time!
Together, we can do it!

LAMINATED BAG ART SPECS

Introducing Our One-of-a-Kind Customer Order Station: Revolutionizing Order Management. Our innovative custom order station has been meticukously designed to enhance the efficiency of our order processing. With this all in one platform, you can have access to all the details of both your current and past orders, dating back as far as 15 years.

Acceptable File Formats

• We accept Illustrator, Photoshop, and PDF files.

Acceptable File Formats

• Image can cover the entire surface, front, back, sides and bottom.

• Piping will cover 3/8" on the left and right edges of the front, back and side panels.

• Keep all critical elements 1 1/2" from top of bag, 1/2" from sides and bottom.

Inside Hem Allowance

• Extend full-bleed image 1 1/4" past the top edge of the bag, to fold over on the inside. Stitch Zone Warning

• Within top 1 1/2" of the bag, there will be stitching to secure the handles and a row of hem stitching.

• Placement of hem stitching varies, but typically falls around 1 1/4" from the top.

Placement of Handles

It varies, but is usually placed at 1/4 of the bag width from edge of the bag on each side. Do not arrange critical images in this area.

Specifications for Adobe Illustrator files

• All linked images must be sent with the Illustrator file.

• Linked images must be in CMYK and at least 300 dpi resolution at reproduction size.

• All fonts must be converted to outlines.

• Any spot colors should be Pantone colors and on separate layers – a separate layer for each spot color.

Specifications for Photoshop files

• File color mode must be CMYK.

• Minimum 300 dpi resolution at reproduction size

• All fonts must be rasterized.

• Any spot colors should be Pantone colors and on separate layers – a separate layer for each spot color.

• Do not flatten artwork files with spot colors – send the layered Photoshop file.

Specifications for Making PDF Files

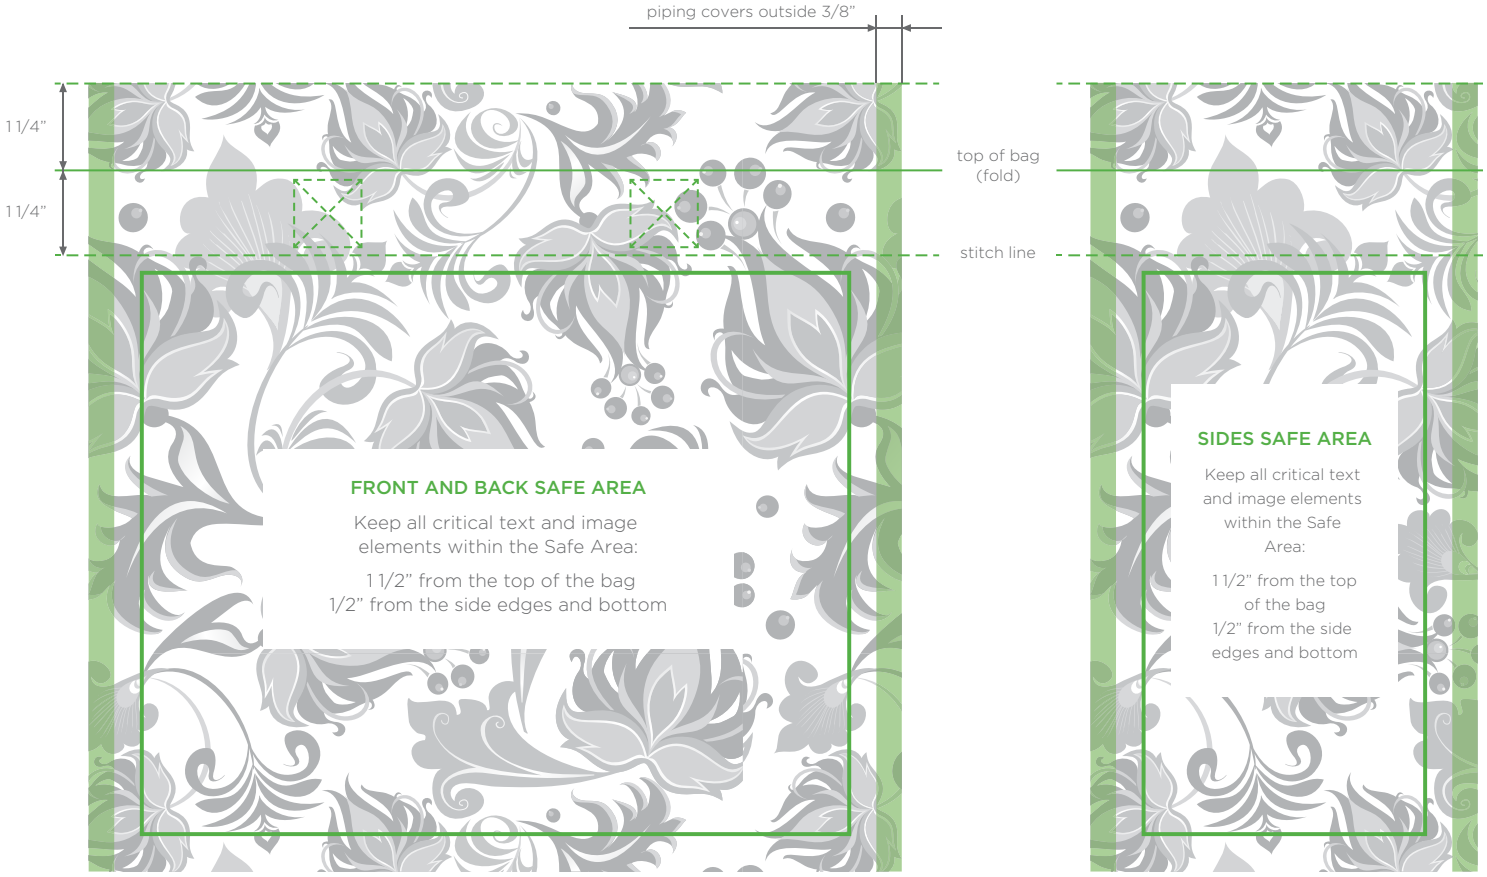

• PDFs must be in CMYK, and all images in the file the PDF is made from must be in CMYK.

• Images must be minimum 300 dpi resolution at reproduction size.

• When creating PDF file, choose Acrobat default Press Quality settings (with at least 300 dpi).

• PDFs from Microsoft applications are not accepted.

GENERAL INFORMATION

Turnaround time

• Art review, printing layout and mockup: 24 hours.

• Pre-production sample: 2-3 weeks after approval of print layout.

• Mass production: 7-9 weeks after approval of printing layout or pre-production sample with Express Ocean shipping; 8-10 weeks via regular ocean freight.

• Rush production: 4-6 weeks after approval of printing layout with air freight shipping.

• Extreme rush production: 3-4 weeks after approval of printing layout with FedEx Priority shipping.

• No rush charge if we can do it.

Artwork requirements

• Artwork files must be submitted in an acceptable file format — AI, PDF or PSD (See Page 128 for details).

• Artwork template can be generated on our website.

• General artwork specs and layout instructions can be downloaded on our website or found on Page 198-203.

• Artwork can be submitted via gbag.net/dropbox/

Proofs for laminated bags

• A virtual (digital) sample is provided free-of-charge when an order is placed and print-ready artwork is provided.

• A physical pre-production sample can be ordered for $298 — add 2-3 weeks to total production time.

• If physical pre-pro is not ordered, pictures of the first finished bag will be provided before mass sewing

Proofs for laminated bags

• A virtual (digital) sample is provided free-of-charge when an order is placed and print-ready artwork is provided.

• A physical pre-production sample can be ordered for $298 — add 2-3 weeks to total production time.

• If physical pre-pro is not ordered, pictures of the first finished bag will be provided before mass sewing

Color accuracy

• The final printed color is determined by the artwork file(s) submitted. Because most computer monitors display colors inaccurately, the final printed color may vary from its on-screen appearance.

• If a specific color needs to be matched, a PMS# must be specified, and an extra plate made.

• If overall color needs to be matched, the customer needs to provide a color-correct print for the production facility along with the artwork and order.

Plate charges

• 4-color process printing requires 4 plates: CMYK. The maximum number of colors (and plates) is 7: CMYK + 3 spot colors.

• Spot color inks also may be required for color matching, for large solid areas of color, or small colored text or fine lines. Each additional spot color requires a separate printing plate.

• The number of plates needed will be determined when the final artwork is submitted and reviewed.

• No plate charge for reorder within 24 months.

Air freight

• If an order needs to be delivered in 3-4 weeks, FedEx Priority door to door delivery is required. We can use the client's own FedEx account# to ship the order.

• If an order needs to be delivered in 4-6 weeks, air freight will be needed to take the shipment to LAX and then domestic ground freight to final destination.

• Partial air shipment is available to meet certain events; remaining order can be shipped via ocean.

Ocean freight

• We've teamed up with an overseas shipping agent to manage our shipments from origin to the mainland U.S. using Express ocean freight. From there, deliveries to final destinations are handled by FedEx or UPS. Third-party pickups are not available unless the final destination is outside the mainland U.S.

• Shipments will be delivered as small packages or on pallets via LTL freight for destinations in the LA area.

Packing and carton printing

• Cartons are custom-made based on bag sizes.

• Normal packing is 100-200/ carton depending on the bag size and the method of shipping.

• Customer information and specs can be printed on the cartons in one ink color at no extra charge.

Delivery

• Every effort will be made to meet the in-hand date, but we can only guarantee the shipping date and follow closely with the shipment.

• We are not responsible for shipment delays due to bad weather, port congestion, customs holds, labor disputes, domestic transportation delays, flight delays or cancellations, terrorist attacks, and other factors that are beyond our control, even though we will do our very best to find other solutions if possible at all.

Cancellation

• The customer is responsible for all materials, labor, and other expenses incurred from the order date to the receipt of a written cancellation request.

Return policy

• All bags are custom-made and are not returnable.

• In case of printing errors or defects, the customer must contact us within one week of receipt of the bags to pursue a claim for reprint or refund.

Sample policy

• All the items you see online were custom made for other clients. We do not keep an inventory for custom items except several units for our records. So most items are not available for samples. Similar random samples can be provided if you simply send us an email indicating the details of the bag you are interested in and what the bag is used for. The more details you and what the bag is used for. The more details you provide, the better matched sample we can provide. Samples will be sent out via FedEx 2-Day at

Payments

• Normal production (7-9 weeks w/ocean freight): 50% down to start production for first time clients.

• Rush production (3-6 weeks w/air freight shipping): 100% pre payment.

• Net 30 can be offered to established clients with excellent payment history.

• Credit cart payment is accepted.

CA Prop 65 compliant

• All our pre-designed bags have been tested, meet and exceed CA Prop 65 requirements.

Trademark use

• We assume that the customer has received all logo authorizations prior to sending artwork to us.

• Trademarks, registered marks, and logos shown on our products are to demonstrate print production capabilities only, and are the property of their respective owners.

• We reserve the right to use all product samples and images for marketing and display purposes, unless otherwise specified in writing when the order is placed.
