/*

READ THE INSTRUCTIONS BEFORE INSTALLING! Highwater is a script created by @highwater and this instruction is extracted from v5. v6 uses same instruction for gun selection. YOU SHOULD TURN ON WEAPON SELECTION IN SCRIPT SETTINGS AND THEN USE "TWO TOUCH" SWITCH METHOD IN SETTINGS. SEE PAGE 4 FOR INSTRUCTIONS

*** YOU MUST ENABLE HOLD TO CROUCH AND GAME VIBRATION FOR THIS SCRIPT TO FUNCTION PROPERLY ***

OLED screen indications:

Default	weapons selected
< > high	< primary/secondary >
< image > water.	< barrel > < sight >
< > v5.x	< Current Weapon Name >
Mod Menu	Killswitch
< Category >	OFF
< name > < val >	
< name > < val >	
< name > < val >	

Open the MOD MENU by PRESSING ADS + PRESSING OPTIONS. Scroll through mod menu with dpad. the white highlight is the mod youre currently on.

To edit the mod highlighted you need to hold ADS and press DPAD (LEFT/RIGHT/UP/DOWN). Close the MOD MENU with ADS + OPTIONS again, when exiting it will save settings.

MOD MENU

	options	description
title page mod does)	- legend	this is the legend selection, to be used with the legend mod. change to "No Legend" if you dont want legend mod on (read below what each legend
	preset	this is a list of presets for all settings, if you do not want to use one you can use "custom" and make your own. press PS BUTTON while on first mod menu page to populate all preset settings when not on custom
Aim Assist Prim	- aim assist options, there is plenty of info online for taylordrifts aim assist that can help you if you dont understand an option ^^^^ option will use the values you set for the weapon its pointing to (primary/secondary) per gun will use the values set in the script for each guns aim assist (to edit you must edit the script some tips though avoid running per gun with ^^^^, use per gun/per gun or ^^^^/^^^^, with per gun youll have to edit the script to change aim assist settings	
Aim Assist Seco	- same as primary but for secondary weapon ^^	
Headshot Assist	- toggle	turn headshot assist on or off
	Strength	this pulls your aim up by strength
	Hold Time	holds you aim up for miliseconds * 10
Steady Aim	- toggle	turn steady aim on or off
	ADS Resolution	for when ADS'd this makes it so your aim cannot move diagonally, instead it will step like a staircase, this number is the size of the stairs
	Look Resolution	for when not ADS'd this makes it so your aim cannot move diagonally, instead it will step like a staircase, this number is the size of the stairs

*/

```
define ACTIVATE = PS4_SQUARE;
```

/*

^^ This button will be used to activate the Shot mods when the setting calls for an activation button (a/____) ^^

Shot Mods	- Aim Abuse	Spams ADS while firing
	time	sets the time interval for ADS Spam
	strafe shot	Strafes left and right while firing
	time	sets the time range for the random strafe patterns
	crouch shot	Spams crouch while firing
	time	sets the time between crouches
	auto ping	Ping on fire. apress will yellow ping. holding will enemy ping

- Movement**
- Wall bounce after sliding and jumping towards a wall, jumping off the wall, you can change direction to preform a wall bounce
 - Super Jump at a zipline PRESS JUMP + PING to preform a double jump in the air
 - Hyper Jump at a zipline Press PING + RELOAD to preform a triple jump in the air
 - Super Glide when climbing up a wall after jump, press PING at the peak of the climb to preform a super glide.
if you crouch and dont move youre to early, if you just regular jump youre to late.
 - Bunny Hop while moving HOLD JUMP to preform a bunny hop
 - Slide Cancel while moving forward press CROUCH and you will slide and stand back up before losing momentum
 - Jump Slide while moving forward HOLD RELOAD and press JUMP. this is to be used off a ledge to give you the furthest possible jump
 - Heirloom Spin while holstered and moving forward DOUBLE TAP SPRINT to heirloom spin. (survival slot needs to be turned off in game for this to work)
when toggled on you cna use RELOAD + MELEE to use your survival slot (do not move sticks for best chance of working)
- Weapon Mods**
- swap auto keeps track of your weapons after setting them. (ADS + SWAP to set primary/ADS + MELEE to set secondary is this desyncs)
auto + keeps track of your weapons after setting them. will also fix them on firing if they are desynced. you can still sync manually like auto
 - option manual will not switch weapons on zen unless you are holding ADS when SWAP is pressed. will not allow you to resync manually like auto
 - holster none will only holster manually
S/A will only holster while holding RELOAD and pressing SPRINT
S/Fwd will holster if you are moving forward full speed and pressing sprint
Hold will holster if you hold SPRINT for .6 seconds
 - ADS unholster When active you can use ADS or SWAP to pull weapon back out when holstered
 - Weapon Select Old this will use the old select system, read below to see the old method
TwoTouch this will use the two touch select system, read below to see the two touch mapping
NumPad this will use a NumberPad on keyboard to select, read below to see the mapping
 - ar ads x allows you to universally change ads anti recoil x axis. this will effect both left and right. so it will tighten or increase the spread.
 - ar ads y allows you to universally change ads anti recoil y axis. increase to pull down, decrease to pull up
 - ar hip x allows you to universally change hipfire anti recoil x axis.
 - ar hip y allows you to universally chaneg hipfire anti recoil y axis.
- Quick Primary** - this allows you to set favorites for your primary selection, to set these values in game:
- PING + 1 tap LEFT for gun LEFT + attachments
 - PING + 1 tap UP for gun UP + attachments
 - PING + 1 tap RIGHT for gun RIGHT + attachments
 - PING + 1 tap DOWN for gun DOWN + attachments
- Quick Secondary** - this allows you to set favorites for your secondary selection, to set these values in game:
- PING + 2 tap LEFT for gun LEFT + attachments
 - PING + 2 tap UP for gun UP + attachments
 - PING + 2 tap RIGHT for gun RIGHT + attachments
 - PING + 2 tap DOWN for gun DOWN + attachments
- Miscellaneous**
- armor swap this works by walking up to a deathbox pressing RELOAD + SWAP and it will access the deathbox and pull the armor out. adjust the time if its not getting armor
 - PANG! this turns your PING button into a single fire fire button while ADS'd. used for long range and precision shots. works with automatic guns.
fyi this will not let you ping while ADS'd without a ping shot mod
 - Quick Swap this switches your weapons faster than a normal switch. will crouch while switching weapons (use killswitch in menu to avoid issues when pressing SWAP)
 - Keep Firin' this switches weapons after you fire a full clip and hold the FIRE button when 1st gun is empty
 - Easy Crouch use this if you like to play toggle crouch. YOU MUST PLAY HOLD TO CROUCH IN GAME SETTINGS FOR THIS SCRIPT
 - Loot Spam when enabled HOLD SPRINT to loot spam
- Game Settings**
- Yaw set this to your in game yaw sensitivity setting
 - Pitch set this to your in game pitch sensitivity setting
 - ADS Yaw set this to your in game ads yaw sensitivity setting
 - ADS Pitch set this to your in game ads pitch sensitivity setting
 - Deadzone set this to your in game deadzone setting
 - Response Curve set this to your in game response curve setting
- Controllor**
- ADS+FIRE x adjusts your stick's feel for your firing while ADS'd speed x axis. 100 is normal, < 100 reduces stick feel. > 100 increases stick feel.
 - ADS+FIRE y adjusts your stick's feel for your firing while ADS'd speed y axis. 100 is normal, < 100 reduces stick feel. > 100 increases stick feel.
 - HIPFIRE x adjusts your stick's feel for your hipfiring speed x axis. 100 is normal, < 100 reduces stick feel. > 100 increases stick feel.
 - HIPFIRE y adjusts your stick's feel for your hipfiring speed y axis. 100 is normal, < 100 reduces stick feel. > 100 increases stick feel.
 - Layout match to your ingame layout. if you use custom you need to edit the buttons below and select custom in this setting.
if you are changing them and switch to an option that changes ADS you need to then use that ADS to change agaain

```

*///--CUSTOM LAYOUT ( ONLY CHANGE IF YOU DO NOT PLAY A NAMED LAYOUT IN GAME, YOU WILL NEED TO SET LAYOUT IN OLED MENU TO CUSTOM TO USE THESE )

```

```

This feature is smart enough to know if current weapon does not allow certain barrels or sights

Legend Mods

*** be sure to be selected on the right legend. If you dont want a legend mod use "no legend" option ***

Pathfinder

Better Grapple

Pathfinder will jump when you latch onto a surface

Grapple Hop

Look straight down and press DOWN.

Slide Grapple

Look at the surface you want to slide grapple off of, then press and hold DOWN.

Wraith

Wraith's Crouch Portal (End)

While IN your ultimate, press DOWN.

For the best results only perform this mod on flat surfaces otherwise it may not work as intended.

Tactical + Ultimate

when not in Ultimate press DOWN to use ultimate and tactical

Revenant

Revenant's Silence + Nade Combo

While HOLDING your GUN press and hold the DOWN, then release DOWN when you want to throw the orb and grenade.

Newcastle

Newcastle's Silent revive

press DOWN near a knocked teammate. Newcastle will drop his knockdown shield, for when you want quieter revives

Valkyrie

Valkyrie Behind Missile Swarm

Look straight down at the ground and press DOWN.

Bangalore

Bangalore slide and smoke

press DOWN to slide and smoke

Bangalore slide smoke and heal

press and HOLD DOWN to slide smoke and heal

Wattson

Easy Wattson Fence

Press and hold your TACTICAL, place the nodes where you like then release your TACTICAL button to automatically return to your weapon.

Rampart

Easy Rampart Shield

Press and hold your TACTICAL, then release it to automatically place the shield.

Sheila

ultimate has anti-recoil

Crypto

Crypto Crouch

ensures that cypto is crouched when entering the drone

Throw drone and heal

hold DOWN to throw drone and heal while in drone (will not work if drone is already out)

Easy Crypto Drone

Press and hold your TACTICAL to throw and enter your drone, when you want to return to your character, release TACTICAL to automatically exit the drone.

Bloodhound

Ultimate + scan

If you press DOWN, you'll use your ULTIMATE and scan the moment the game lets you.

Lifeline

Slide Revive

While running, press DOWN and you'll slide while reviving. This attempts to reduce the movement penalty while reviving.

Revive and drone

while standing, press DOWN and you'll revive the teammate and drop the healing drone after.

Caustic

Panic Ultimate

If you press DOWN, you will pull out and use your ULTIMATE as soon as the game lets you. Panic ult.

Fuse

Panic Ultimate

If you press DOWN, you will pull out and use your ULTIMATE as soon as the game lets you. Panic ult.

Nade Spam

HOLDING DOWN, you will spam grenades when you release your gun will be pulled back out.

Horizon

Ultimate + grenade

If you press and hold DOWN, your ULTIMATE will be pulled out and on release you'll throw your ULTIMATE and immediately throw a GRENADE.

Tactical and Heal

if you press DOWN you will throw tactical and heal while using gravity lift

Moonwalk Shot

While sliding in a direction, if you fire youre weapon you will bunnyhop until you stop firing

Octane

Heal and Stim

If you press DOWN, you'll start healing and stim shortly after.

Seer

Passive Peek

If you hold RELOAD, you'll start to ADS spam just enough to make quick heartbeat scans.

Mad Maggie

Ultimate Tactical Stick

If you press DOWN, you'll throw your ULTIMATE and shoot your TACTICAL immediately after.

Ash

Quick Ultimate

If you press DOWN, you'll equipt and use your ULTIMATE as soon as possible.

Tactical then Ultimate

If you HOLD DOWN, you'll first throw Ash's tactical (aim for your feet) then release DOWN to use Ult where you're aiming.

Mirage

Instant Mimic

If you press DOWN, you'll automatically create a decoy that mimics you.

Loba

Easy Bracelet

If you press and hold TACTICAL, you'll drop your bracelet on release.

Gibraltar

Quick Arm Sheild Toggle

If you double tap ADS, you'll toggle your gun shield.

Ult then Bubble

press DOWN to use ult and throw bubble after

Rumble toggle set to FALSE if you want rumbles turned on (Keep Ingame Rumble ON For Rumble Mods To Work Properly)
